

HARD FIGHT FOR BALLINGER

Richard Achilles Ballinger, secretary of the interior, has prepared to put up the greatest fight of his career. When Gifford Pinchot threw down the gauntlet and forced President Taft to oust him as forester he did not make things easier for Mr. Ballinger. With Pinchot in office Ballinger felt that he could do less harm than if he was free to express his opinions openly as he is now out of the government's employ.

Consequently Mr. Ballinger recognized at once that his fight with Pinchot became all the harder when Pinchot wrote the letter to Senator Dolliver that brought about his discharge. Pinchot is now placed in the position of prosecuting witness against Ballinger, and when he goes on the stand before the congressional investigating committee he will not be merely a government witness.

Then the insurgents in the house took the bit in their teeth and ran away with "Uncle Joe" Cannon's vehicle that might have been convenient in case there was any desire to haul a load of whitewash into the affair. The power of appointing the house committee was taken out of Speaker Cannon's power, and Mr. Ballinger recognized at once that there was grave danger that men friendly to his interests would not be members of the committee.

Therefore Mr. Ballinger prepared to fight. If he is a friend of the "interests," as has been charged by Glavis and others, Mr. Ballinger is sure to have the support of the Guggenheims and the people with whom they associate in business. Likewise, judging from the report of Attorney General Wickersham on the Glavis charges, Mr. Ballinger can expect aid from the administration.

Arrayed against him are what may be termed the Roosevelt forces. There is no gainsaying the fact that Pinchot's great strength lies in the fact that he is a friend and pretege of Col. Roosevelt. It is not because Pinchot was a good forester and did the work well because of his love for it and a desire to conserve the natural resources of the nation for the people that he is danger ous to Hallinger. The fickle public has a way of forgetting a man's great services to his nation, but once let the people learn to love and trust a man as they do Roosevelt and they will support him and his followers to the limit. It is for this reason that all of the Roosevelt followers in the country will do everything they can to help Pinchot in his fight against Mr. Bailinger

Mr. Ballinger is a native of Iowa and is 52 years old. He is a great lawyer and the author of several legal works. He was mayor of Scattle, and was appointed commissioner of the general land office in 1907.

"MATCH KING" IN POLITICS

Ohio Columbus Barber, head of the "match trust," and the most prominent citizen of Akron, O., is out for revenge upon Senator Charles Dick. He has challenged that statesman to give a public platform explanation of what he means by "standing pat" on certain tariff schedules of the tariff bill and why he isn't for government control of ratiroads.

The "match king" is nursing a grudge of 20 years' standing against Dick/ Dick as county au-ditor, sued him, as manufacturer, for \$100,000 back taxes and the match king had to transfer the restdence of his Ohio person to Illinois to fight the suit. The "match king" was chased from his native city.

But although Mr. Barber was very much averse to giving up the \$100,000 for back taxes which he claimed he didn't owe, he cannot be classed as a "tightwad."

When a committee from St. Paul's Episcopal church came to him for possible \$3,000 donation for their new church in 1906, he surprised them completely by giving them a \$400,000 subscription with which "the best church in America" was built.

Mr. Barber, in his travels in Paris, has admired the church of the Made He promised to duplicate it for Akron, the town in which he had risen from poverty to many millions, and he did.

Senator Dick in his speeches against Barber has raised the issue that "match king" is not a citizen. "Who's Who in America," says Mr. Barber was born in Middlebury, O., April 20, 1841, and when 15 years old began work in his father's match factory at Akron, O. He worked up rapidly and became a partner in 1861. It was in 1881 that he arranged a combination of match manufacturers, and formed the Diamond Match Company, of which he became vice-president. Seven years later he was made president, and since then has been known as the "match king."

SPAIN'S MINISTER RECALLED

The marquis de Villalobar, Spanish minister to Washington, has been transferred to Lisbon." This brief dispatch sent by the Associated Press from Madrid caused a stir in diplomatic and state department circles, coming, as it did, on the heels of a story that the marquis had considered himself insulted by President Taft.

The marquis is said to have taken exception to the new rule which separates the ministers from the ambassadors and to have felt such annovance that he has reported to Maduld.

The president, with members of his cabinet, received the ambassadors behind an inclosure roped off from the passageway in which were the min isters. The marquis desired to pass back of the inclosure and different versions of what occurred

are given. Anyway, the marquis was offended, said the report, and withdrew somewhat ruffled. Some of the diplomats say he threatened to request his home government to remember the incident when the minister of this government attends the court receptions of Alfonso.

The marguis denies the story and declares: "About a month and a half ago," he said, "my government asked me if I would go to Lisbon and take up a number of important matters between Spain and Portugal. I replied that I preferred to remain as minister to the United States. While I would be glad to go if my government required it. I informed the king, I had been happy here and every relation with this government was most pleasant."

WAR OVER HALLEY'S COMET

Prof. Percival Lowell, who watches the stars from Lowell observatory, Flagstaff, Ariz., has started an astronomical controversy that bids fair to put the Cook-Peary bitterness in the candy class.

Prof. Lowell smiled when it was suggested to him that Halley's comet, now the big thing in the skies, might wreck the earth. "Halley's comet will in all human probability not affect the earth in this way," Prof. Lowell replied.

Then he proceeded to elucidate his now controverted theory of the earth's finish in the melting pot of the sun. Floating around somewhere in the ether is a dead, cold, loy star which is rushing toward the earth, Prof. Lowell theorizes. It may take millions of years to get here, the universe is so vast, but it is on its way. Prof. Lowell

declares. Sight of it will first be obtained through the most powerful telescopes when it is a star of the eleventh magnitude. Twenty-seven years later it will become visible to the naked eye and three years later it will be a star of the first magnitude.

In two years and three months more it will be as close as Jupiter is and the brightest star in the sky. Forty-five days later those still alive will witness the beginning of the end of the earth, for the dead world will draw this earth after it as it phinges into the sun.

90.000 AMERICAN SETTLERS GO TO CANADA

THE YEAR 1909 HAS SHOWN AN INCREASE OF OVER EIGHTY PER CENT IN AMERICAN SETTLEMENT.

Recent advices from Canada, our next door neighbour, the neighbourly country across the boundary line. are that upwards of ninety thousand settlers from the United States went into Western Canada during the past year, most of them for the purpose of taking up and settling upon the vacant lands, 160 acres of which are given free by the government, and lands adjoining held by railway and land companies are selling at from nine to fifteen and twenty dollars per Even if thirty and forty dollars per acre were paid, the price would be low, as the lands produce wonderfully, and at these higher figures there is a large interest on the money and labor invested. The ninety thousand settlers of last year, followed about sixty thousand of the previous year, and for several years the number has been running into these large figures. There must be a reason for it. It may be found in the single phrase, "they are satisfied." Nothing attracts people more than the success of others, and the news of this reaching other thousands, causes them to investigate. The investigation in this case is always satisfactory. The splendid land of Iowa, of Indiana, of Nebraska, Kansas, Minnesota, Wisconsin, Michigan, Ohio and other States has risen to a high value, and it is worth every dollar asked for it. But there is not room now for all on these lands. With the ever increasing demand for grain, there comes the ever increasing demand for land. Canada is the only country on the continent in a position to supply it. Land there that costs, say fifteen dollars an acre, produces on a reasonable calculation, 25 bushels of wheat to the acre, or about \$20.00. The most liberal calculation as to cost makes the cost to produce \$7.50 per acre, leaving a balance of \$12.50 per The \$7.50 carries good wages acre for the farmer, and all other conceivable contingencies. With conditions like this, covering the entire area of about 500,000 square miles, it is readlly understood why 90,000 Americans should follow the sixty thousand of the previous year. Canadian Government Agencies at different points in the Union are always ready to give information regarding the free homestead lands, ready to advise the settler as to the districts which would suit him best.

Sold Again,

Little Willie was fond of springing surprises on his parents by announcing some terrific happening, and then, when excitement was at fever point, declaring that nothing of the kind had occurred. But he played the trick once too often. A new and very pretty governess came to stay at the house for Willie's benefit a few weeks back, and a day or two after her arrival Willie rushed to his mother saying:

"Mamma, there's a strange man upstairs who has just put his arm around Miss Wilson's waist and kissed her several times-

"What?" said the mother, as she jumped up to pull the bell for the but-

"Sold again, mamma!" said Willie, in great glee. "It wasn't a strange man at all. It was papa!"

Gave Himself Away.

"Michael," familiarly inquired the employer, thinking he had seen his employe carrying one of the banners in the St. Patrick's parade of the day previous, in which procession the Irishman had laid off work to march, "didn't I see you carrying something

in the parade yesterday?"
"Yis," admitted Michael, blushing scarlet, "but OI had no suspicion me bottle made me hip pocket sh'tick out so much!"-Illustrated Sunday Maga-

Period of Joy for Casey. Casey's wife was at the hospital. where she had undergone a very seri ous operation a few days before. Mrs. Kelley called to inquire as to

Mrs. Casey's condition. "Is she restin' quietly?" Mrs. Kelley

asked "No, but I am," saidCasey.

That's the Question.

Wife-You were late last night, Hub-Beg pardon, my dear. As I came in the front door the clock

Wife-But what time did you arrive at the head of the stairs?

Did you ever have a good, old-fash-ioned boy's stomach ache? Of course you have. A little dose of Hamlins Wiz-ard Oil will chase away a colicky pain in the stomach like magic.

A Question of Time.

"How much does it cost to get married?" asked the eager youth. "That depends entirely an how long you live," replied the sad-looking man.

like better-Sweet Maid-I'll sue you for breach

There is more Catarth in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarth to be a constitutional disease, and therefore requires constitutional treatment. Hairs Catarth Cure, manufactured by F. J. Chenry & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally in doses from its drops to a tenapocofiel. It acts directly on the bend and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure, bend for circulars and tertinonials.

WHAT'S

Your Health Worth?

You start sickness by mistreating nature

You start sickness by mistreating nature-and it generally shows first in the bowels-and liver. A roc box (week's treatment) of CASCARETS will help nature help you. They will do more—using them regularly as you need them—than any medicine on Earth. Get a box today; take a CASCARET tonight. Better in

the morning. It's the result that makes millions take them. 881

When He Courted You

He didn't complain if you were a little despondent or irritable at times. Now he does. He's the same man. He didn't understand then. He doesn't now. Then he thought it was caprice and liked it. Now he thinks it is caprice and doesn't like it. But now he's busy getting money.

If he realized the full truth he would be more than anxious to have the wife he loves take the right remedy to restore her to true womanly health. Most men don't know that when a woman is weak, nervous, irritable and despondent, there is invariably something radically wrong with the delicate feminine organs with which her entire physique is in sensitive sympathy.

There is one, and just one remedy, tried and proven, that will put things right when the feminine organism is weak or diseased. It is

Dr. Pierce's Favorite Prescription.

This medicine restores perfect health to the weakened organs, and makes them strond.

It makes wifehood happy, and motherhood easy. It makes child-birth short and almost painless. It helps to make real "new women." An honest druggist won't urge

upon you a substitute.

This "Favorite Prescription" is a pure glyceric extract of native medicinal roots and contains no alcohol, injurious or habit-forming drugs. A full list of its ingredients printed on its outside wrapper and

attested as full and correct under oath. Dr. Pierce's Pleasant Pellets regulate and strengthen Stomach, Liver and Bowels. Easy to take as candy.
